A former merchant of Paintsville, Akers, by name, has run away with another man's wife. Late developments show him to be considerably entangled in his business affairs. The Paintsville Grocery Co., the Big Sandy Hardware Co., and the Paintsville National Bank, have claims against him. Suits have been filed and the stores attached. Other creditors will assert their claims and it is doubtful if the stock of merchandise will pay him out. The claim of the bank is secured.

A Grand Family Medicine.

"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan of No. 436 Houston St., New York. "It's a grand family medicine for dyspepsia and liver complications; while for lame back and weak kidneys it cannot be too highly recommended." Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. Sold under guarantee at A. M. The Poultry Yard.

It is not yet too late to caponize. The duck laying season ends this month.

All the old surplus stock should now be marketed.

There is nothing better for the poultry during hot weather than charcoal.

Keep up the fresh water supply; warm water is nauseating to the stock.

Add linseed-meal to the soft feed, and place some rusty iron in the drinking vessels.

Queer that some folks never think of providing shade for their hens in hot weather.

Save some of the best young hens for breeding purposes. Eggs from thrifty two-year-old hens are pretty sure to hatch.

Poultry manure is worth not less than \$12 a ton. But if you store it where it will get wet, it will not be worth much of anything.

You might about as well throw your your hen manure into the creek as to mix it with ashes or lime. Peat or mulch is the best to use as an absorbent.

In feeding fowls it is best to scatter all grain well. If this is not done the stronger and more pugnacious fowls will drive the more timid and weaker ones away from the feed, and the latter will not get their full share.

Give the hens a liberal amount of food and care from now on until they have gone through the exhaustive process of growing new feathers. They surely deserve the very best care instead of the neglect which is often their portion.

EXHIBITS AND CLASSIFICATIONS

At the Kentucky State Fair.

Entries of exhibits in all Livestock Departments, except for horses, mules and jack stock, will close Monday, Sept. 7th, at 6 p. m., and in all other departments prior to Thursday, Sept. 10th. Entries of horses, mules and jacks will positively close at 12 o'clock the day before the exhibition this year, as there will be a printed program of the horse show, giving the name of the owner, the name and color of the horse, and the number of the entry, which must correspond with the arm number on the person riding, driving or exhibiting same. It is absolutely essential that the entry giving this information be filed with the Secretary by noon of the day preceding the exhibition.

Exhibits must be placed by 9 o'clock Monday morning, Sept. 7th, and exhibitors in all departments have been so notified.

There are 1,325 different rings in which liberal prizes are offered, while there is a total of over 300 different lots. The horse classification is subdivided into classes suitable for light harness, five-gaited saddlers, three-gaited saddlers, roadsters, combined harness and five-gaited saddlers, plantation saddlers, runabouts, high stepers, Shetland ponies and fine horses. The mules and jack stock are well taken care of.

In the Beef Cattle Department the classification is complete for Short-horns, Herefords, Polled Durhams, Aberdeen-Angus and Red Polls. In the dairy cattle department Jerseys, Holstein-Friesians, Guernseys and Ayrshires are recognized. The Swine Department includes Berkshires, Poland-Chinas, Durock-Jerseys, Chester Whites, Tamworths, Hampshires and Yorkshires. In the Sheep Department the following breeds are recognized: Shropshires, Cotswolds, Southdowns, American Merinos, Oxford, Hampshires, Dorsets, Ramboulllets and Lincoln, also a class for Angora Goats. The Poultry classification covers every known standard variety, and the same is true of the Pigeon Department, the prize money being materially increased over last year's list. The Departments for Vegetables and Melons, Field Seed and Grain and Tobacco contain classes for almost every product grown on the farm. In Horticulture there are hundreds of prizes offered for apples, peaches, pears, grapes, etc. Plants and Flowers, one of the most attractive exhibits at a fair, will be larger and better than ever before. In no department is there a more interesting collection of premiums than in that set aside for woman's work, children's work and table luxuries.

Mrs. Loyd Clay of Paintsville, who went to Cincinnati last week for treatment, did not survive the operation which was thought to be her only chance for recovery. The body was taken to Paintsville for burial.

Mrs. Clay's maiden name was Miss Lizzie Preston and she was a member of the Methodist church.

Besides the many friends she leaves a husband and two little girls, one five and the baby, only a few weeks old, to mourn their loss. But she was a constant devout Christian, and her last words were, "Thy will be done."

Thinks it saved His Life.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly 40 years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at A. M. Hughes' drug store, 50c and \$1. Trial bottle free.

Mr. E. H. Humphrey, who owns a large general store at Omega, O., and is president of the Adams County Telephone Co., of Pike county, Ohio, says of Dr. King's New Discovery: "It saved my life once. Dr. King's New Discovery not only reaches the cough spot; it heals the sore spots and the weak spots in throat, lungs and chest. Sold under guarantee at A. M. Hughes' drug store, 50c and \$1.00. The Perfect Carriage Horse at the State Fair.

In order to develop a perfect carriage horse, the United States Government appointed a Commission to investigate the desired points that should be possessed. In order to stimulate the breeding of this class of animals, the Kentucky State Fair offers a \$75 trophy and a \$50 cup for the best mare and stallion, according to the government classification. The points desired by the carriage horse are given in detail in the State Fair catalogue.

A State Fair ribbon has the backing of the Commonwealth of Kentucky; it is a trophy of great sentimental and advertising value aside from the cash premium which accompanies it.

For catalogue, entry blanks or other information, write J. W. Newman, Secretary, 350 Paul Jones Building, Louisville, Ky.

Job Printing

Some of you are paying more for your job printing than the Big Sandy News office charges, and getting a poorer class of work and a cheaper grade of stock. It is worth your while to investigate.

RUBBER STAMPS

Rubber stamps are a great convenience for certain purposes. They are not suitable for printing your letter heads and envelopes. Neatly printed stationery looks business-like and is cheaper, all things considered, than buying blank stock and stamping it yourself.

However, we furnish rubber stamps at 1 cent for a single line 8 inches or less in length. 25 cents for 3 lines 3 inches or less.

Heart Strength

Heart strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Poorly, not one weak heart in a hundred is in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it cleanses; it energizes; it purifies; it would have every heart, strong in position, strengthen these nerves—re-establish them as needed, with
